OKANLAWON, MUYIWA RAPHAEL

Lagos State Okanlawonmuyiwaraphael@gmail.com (+234) 8121814456
Portfolio: https://raphaelmuyiwa7-max.github.io/portwebpage/

PROFESSIONAL SUMMARY

To leverage my hands-on skills and knowledge in network administration, IT support, enterprise infrastructure deployment, troubleshooting, and network security monitoring to strengthen the organization's network reliability, maintain high uptime, optimize performance, support secure connectivity, and contribute to scalable IT solutions, while gaining deeper industry experience and developing into a trusted IT professional.

EDUCATION

Lagos State University (LASU), Lagos State **September 2020– April 2024**

Bachelor of Science (Hons), Computer Science *(Second Class Honours)*

- Relevant Coursework**:** Network Analysis, Data Communication & Networks, Computer Architecture & Graphics Performance Evaluation, Digital Signal Processing, Integrated Circuits, Hardware System Design

  .
- **Final Year Project:** Detection of Cross-Site Scripting Attacks using Dynamic Analysis and Fuzzy Inference System (real-time vulnerability and malware tracking software focused on XSS threats).

PROFESSIONAL EXPERIENCE

MICROKERNEL TECHNOLOGIES LIMITED — **June 2026 – present**
Inventory Coordinator & IT Support

- Coordinate and manage inventory of printer consumables and spare parts across multiple client branches including DLM, Lafayette, Five Star, and Comet
- Conduct physical stock audits and reconcile inventory records against Zoho Inventory, identifying and documenting
  discrepancies between client requisition forms and system records
- Manage stock intake, issuance, and replenishment, liaising directly with vendors to maintain optimal stock levels
- Prepare weekly inventory reports, internal memos, and out-of-stock notifications for management and the accounts department
- Support field engineers in the installation and retrieval of MFP printers at client sites, including configuration and server linking via MyQ print management software
- Built and deployed a client intake automation workflow using Make.com, reducing manual processing and enabling automated responses to incoming client requests

---

VISITAFRICA — **August 2026 – Present | Remote**
(Nonprofit)
Volunteer Network Security Analyst & Code Auditor

- Conduct penetration testing and network reconnaissance on the VisitAfrica web platform to identify security vulnerabilities before deployment
- Performed Nmap service and port scans, confirming Cloudflare WAF protection and analysing attack surface exposure across public-facing infrastructure
- Audit application source code for security loopholes including misconfigured policies, exposed sensitive data, and vulnerable dependencies
- Collaborate with the development team to identify and remediate issues flagged during security reviews, including CORS misconfigurations and outdated packages
- Contributed findings to the team via structured security reports shared within the dev team workflow

---

NATIONAL YOUTH SERVICE CORPS (NYSC)

Ministry of Innovation, Science and Technology – Alausa **Jan 2025 – Nov 2025**
NYSC – IT Support & Digital Communication

- Provided first-level technical support to over 100 end-users, resolving network, hardware, software, and connectivity issues promptly.
- Assisted in configuration, deployment, and troubleshooting of Cisco switches and routers for newly
- commissioned office infrastructure.
- Participated in structured network cabling projects (CAT6 runs, termination, patch panel documentation
- Monitored network performance with PRTG, identified bandwidth anomalies, and proactively escalated risks.
- Managed user accounts, permissions, and Group Policies using Windows Server Active Directory.
- Troubleshot LAN/WAN/Wi-Fi issues, contributing to approximately 15% improvement in average ticket
- resolution time.
- Installed and configured IP surveillance cameras, assigned static IPs, and integrated feeds with central NVR systems.

PROFESSIONAL TRAINING & PROGRAMS

HYBRID SECURITY CONSULTS **April - July 2026**

Faculty of Cybersecurity | Department of Digital Forensics & Investigation

(Role) ACFI Applied Computer Forensics Investigator

- Perform a comprehensive analysis to determine the subject's intent, identify any weapons or unauthorized documents researched, and prove suspect interaction with specific system areas through Registry and Shellbag forensics.
- performed a bit-stream acquisition of Suspect workstation. The resulting image, Suspect**.E01**, with assigned evidence number.
- Performed a file signature analysis on a certain number of files to identity the file type using Active@ disk editor
- Performed a forensic image of a virtual hard disk using **FTK Imager** and **Paladin**, successfully attached a virtual hard disk to a virtual machine, verify hash values, and document forensic evidence according to standard digital forensics procedures.

Huawei Lagos state program – Oriental Hotels **2025**

- Participated as a delegate team member to present Huawei's new WIFI device and its key benefits, highlighting advanced features for enhanced connectivity, speed, security, and reliability in enterprise and hospitality environments.
- Discussed AI technology integration and its benefits, including intelligent network optimization & maintenance
- Engaged in discussions on emerging techs, contributing to knowledge sharing among participants

TECHNICAL SKILLS

- IT Support: Computer system troubleshooting, end-user support, system configuration, support
- Installed IP surveillance cameras, assigned static IPs, and integrated feeds with central NVR systems.
- Monitoring & Tools: PRTG Network Monitor, Wireshark, Nmap, Cisco Packet Tracer, SSH, Telnet, RDP
- Monitoring & Tools: PRTG Network Monitor, Wireshark, Nmap, Cisco Packet Tracer, SSH, Telnet, RDP
- Security: ACLs, Firewall Configuration, VPN Concepts, Incident Response, Network Monitoring
- Infrastructure: CAT5e/CAT6 Cabling, Patch Panel Termination, IP Camera Installation, NVR Integration
- CRM Basic Configuration Setup Zoho, Microsoft Dynamics 365, Freshworks, Salesforce, Hubspot, Oracle Netsuite.

LEADERSHIP & VOLUNTEER EXPERIENCE

(FIRST RESPONDER) HYBRID SECURITY CONSULTS 2026

- Coordinated an interactive class for 20+ Colleagues educating them on tools like, Paladin, Active@ disk editor, Autopsy, FTK IMAGER.

Class Representative, Computer Science – LASU **2020 –2024**

- Coordinated academic logistics and resolved student issues for 60+ peers, enhancing communication between faculty and students.

Volunteer - Community Health Centre **2019-2020**

- Collaborated in local health initiatives, including data-driven COVID-19 Symptoms
- Collaborated in the distribution of Oral polio vaccine.
- Supported in raw data collection, analysis, SQL storage, and community outreach for improved healthcare mapping

Network Tutorial Class for IT Students **2025**

- Coordinated an interactive class for 100+ IT Students educating them on networking basics, OSI models, IP Addressing, subnetting, Network cables & Devices.
- Coordinated an interactive session for IT students where we troubleshoot a malfunctioned server gained knowledge on server logical pool stack and server specifications.

SOFT SKILLS

- Excellent communication, Problem-solving, presentation, documentation, and collaboration skills.
- Strong organizational skills and detail-oriented.
- Ability to work independently and as part of a team.
- Quick learner and adaptable to new technologies.
